

# ROEBUCK HUNTING IN HUNGARY

We have a several hunting areas for roebuck in whole Hungary. Our partners are tested personally, so we know, what we offer. The roebuck hunting begins on the 15th of April. From this date to the end of May is easy to shoot bucks with great trophies between 250-650 gramm. After the end of May the roebuck hunting is a bit difficult in Hungary, because the vegetation is getting higher and higher.

Fortunately we have another chance to be successful in this hunting. That is the rutting season, what begins in the end of July. Roebuck calling is a really interesting kind of hunting.

For our roebuck hunters we offer the following services:

- we give a personal offer for all our clients
- we make all the documents what is needed to hunt in Hungary
- we put hunting licences across
- we book a great accommodation
- we organise everything about the hunting
- we are there during the hunting
- we give transfer from airport and back
- so we give always an all inclusive offer

C.I.C. points:

- 105,00-114,99: bronze
- 115,00-129,99: silver
- from 130,00: gold

Near the areas we can offer accommodations in Hotels or in hunting lodges with full board. All the hotels usually give buffet breakfast and buffet dinner. They also give wellness services, just like massage, sauna, swimming pool, jakuzzi, etc.

Important: we offer the same shooting prices as the hunting area offers, we only give more services for our clients for the same price!
